Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's amendments overcome the 102 rejections presented in the prior office action. Applicant indicated that he would be filing a supplementary amendment to include support for the new claim amendment (i.e. inelastic). Also, Applicant indicated he would add language into the claims such as "non-slidably affixed" or the like to overcome any potential 103 rejection over the McAfee reference and point out where the support for this amendment appears in the disclosure. The examiner indicated that she would be doing an updated search upon response of the supplementary amendment and would call applicant after the updated search to discuss the allowability of the case.
